Column Parent Class

```
<div class="columns">
```

```
</div>
```

Columns Children Classes

```
<div class="columns">  
  <div class="column">  
  </div>  
  <div class="column">  
  </div>  
</div>
```

Equal Width Columns

```
<div class="columns">  
  <div class="column">  
  </div>  
  <div class="column">  
  </div>  
</div>
```

Col 1

Col 2

`.is-# (.is-2 through 11)`

Column Sizing

Assign numerical values from 2 to 11.

Column Sizing Numerically

```
<div class="columns">  
  <div class="column is-10">  
  </div>  
  <div class="column">  
  </div>  
</div>
```

`.is-three-quarters`

`.is-one-quarter`

Fractional Column Sizing Classes

Use up to 5 different classes for sizing columns.

Responsiveness

Default Column Behavior

Mobile

Col 1

Col 2

Tablet & Larger

Col 1

Col 2

Maintaining Mobile Column Structure

```
<div class="columns is-mobile">
```

```
</div>
```

Desktop-Only Column Structure

```
<div class="columns is-desktop">
```

```
</div>
```

```
.is-[size]-[device]
```

Responsive Column Sizing

Responsive Column Sizing

```
<div class="column is-three-quarters-mobile is-one-quarter-tablet">  
  
</div>
```

Nesting
